Student Exchange

"I really enjoy my time in Ubaya, because everyone is so friendly and willing to help. The Office of International Affairs helps us since our arrival, and always making sure that we have a good time here. Ubaya has good facilities such as have lot options of canteens, although sometimes some chairs too small for us, since we're quite big compare to Indonesian people size. I also enjoy my class, because the lecturers always starts discussion and analyzing cases, so we got to know applied theory in real business. The student and also people in the neighborhood are very kind and funny."
